

Our B&B, which was renovated in 2005, contains a large communal porch on the second floor with a wonderful view of the port where you can enjoy your coffee. You can also enjoy your breakfast in a very pretty dining room every day until 11 a.m. where you can try Angela's cake and cookies as well as everything else from the rich buffet. You can also surf the Internet for free using our computer located in the same room.
